

# PRODUCT DATA SHEET

## SUN THEIC NOODLES A

### CHEMICAL DESCRIPTION:

**Tris-2-hydroxyethyl Isocyanurate (THEIC)**

**Formula.....C<sub>9</sub>H<sub>15</sub>N<sub>3</sub>O<sub>6</sub>**

**CAS Registry Number:..... 839-90-7**

### Typical Properties

1) Colour and Appearance	White Noodles
2) pH Value (20% in Distilled water)	- 6.00 – 8.00
3) Melting Point °C	- 133 Min.
4) Hydroxyl number	- 19 – 20 %

### Applications

THEIC is primarily used in resin manufacture for a variety of coatings:

- Magnet wire enamels
- Electrical insulating varnishes
